

# I love the Sky

(Words and Music by: Entofilosofo - 2022)

I love the sky, but not of yours  
Your plane is flying, it blows me on  
I love the stars, but only those,  
Who are shining on, my window room

\*

I know the place where Angels fell, the darkest hour, the evil ways  
But now I sing this song, this song of Love, for everyone, but nobody's  
home

\*

When I was young, I see the sky  
All things were bright, and shining on  
I miss them all, above the hills  
To play with friends and ringing bells

\*

I wish we could, get back on time  
To have some fun and turn the lights  
The lights of dream, the dream of child's  
The child that lies into the heart  
The heart of friends, the friends of mine  
My heart of rock, my heart of roll  
For those who come to hear this words  
Keep climbing on for Rock & Roll (x 3)  
I love the Sky
